

LOUIS L. SEYER SCHOLARSHIP

In honor of Louis L. Seyer's lifetime work and dedication to the machining industry, Seyer Industries has established an \$8,000 scholarship, to be used at Ranken Technical College for a student entering into the Precision Machining Technology Program or the Advanced Manufacturing Technology program. The scholarship will be awarded annually to be used for tuition, tools, and books. The PMT or AMNFT Ranken student(s) awarded the scholarship will receive \$2,000 per semester in which they maintain a 3.0 GPA, up to the scholarship maximum of \$8,000 per student. The payment of the scholarship will be made directly to Ranken Technical College.

Seyer Industries is a small business located in St. Peters, Missouri that specializes in the process of managing, manufacturing, and assembling complex mechanical and electrical products. By maintaining an extensive suite of in-house capabilities, including CNC machining, mechanical and electrical assembly, painting, kitting, welding, and design engineering, we strive to provide superior value to our customers through turnkey operations. Our target markets include the aerospace and maritime industries.
